Belgravia Hartford provides corporate update

TORONTO, March 9, 2026 /CNW/ - Belgravia Hartford Capital Inc. (CSE: BLGV) (OTC: BLGVF) (FRA: ECA) ("Belgravia" or the "Company" is pleased to provide an update on its litigation with PolyNatura Corp. ("PolyNatura"), a portfolio company of Cartesian Capital Group, seeking to enforce its US$12.2 million royalty interest tied to water and mineral rights at the Ochoa Project in Lea County, New Mexico.

On February 3, 2026, the United States District Court for the District of New Mexico heard oral argument on PolyNatura's Motion to Dismiss in *Belgravia Hartford Capital Inc. et al v. Polynatura Corp.*, Case No. 2:21-cv-00918-MIS-JHR. The Honorable Judge Margaret I. Strickland presided over the hearing. The motion remains under advisement, and the Company awaits the Court's ruling. Additionally, the Court entered an order continuing the pretrial conference and the February 17–19, 2026 trial dates, which will be rescheduled if necessary. The Company views this procedural step as consistent with the Court's careful review of the pending motions and its ongoing oversight of the case.

On February 2, 2026, Belgravia participated at an in-person settlement conference in Las Cruces, New Mexico with Magistrate Judge Ritter. A resolution was not reached; however, Belgravia remains open to further constructive dialogue.

Mehdi Azodi, President and CEO of Belgravia Hartford, stated: "Belgravia remains confident in its legal position and will vigorously enforce its contractual rights to protect shareholders and advance monetization of its royalty portfolio. Our legal team is actively preparing additional avenues of enforcement to ensure that the full value of our US$12.2 million royalty interest is realized. We are committed to pursuing every available legal remedy on behalf of our shareholders."

Holdings Update:

Belgravia has fully repaid the US$5M convertible debenture issued by Round13 Digital Asset Fund by paying back 42.377 Bitcoin. The decision to repay the debenture using Bitcoin was influenced by the decline in Bitcoin's market price relative to Belgravia's initial acquisition cost, resulting in higher effective interest accrual under the Bitcoin-denominated structure. Eliminating the debt and associated interest accrual strengthens Belgravia's balance sheets as the company evaluates alternative financing opportunities.

Belgravia holds the following unencumbered investments:

- 17.00844408 Bitcoin
- 9,123 BITX Bitcoin X2 Strategy ETF
- 7,030,000 common shares of DelphX Capital Markets Inc. (DELX-TSX.V)
- 1,600,000 DelphX warrants exercisable at $0.08

The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**1933 Act**"), or any state securities laws and may not be offered or sold in the "United States" or to "U.S. persons" (as such terms are defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration requirements is available.
