

Rocky Shore Gold Announces Non-Brokered Private Placement

TORONTO, ON - September 17, 2026 – Rocky Shore Gold Ltd. (“**Rocky Shore**” or the “**Company**”) (CSE: RSG) (OTCQB: RSGLF) announces that it is undertaking a non-brokered private placement (the “**Offering**”) to raise aggregate gross proceeds of up to \$5,000,000 through the sale of common shares of the Company that qualify as “flow-through shares” (as defined in subsection 66(15) of the *Income Tax Act* (Canada)) (“**FT Shares**”) at a price of C\$0.15 per FT Share.

The proceeds from the Offering will be used for the exploration and advancement of the Company’s projects in central Newfoundland.

The FT Shares to be issued in connection with the Offering will be subject to a hold period of four months and one day from the date of issuance, in accordance with applicable Canadian securities laws. The Company may pay finder’s fees on a portion of the Offering to eligible finders, subject to compliance with the policies of the Canadian Securities Exchange and applicable securities legislation.

Insiders of the Company may participate in the Offering. Any participation by insiders of the Company in the Offering will constitute a “related party transaction” under applicable Canadian securities laws. However, neither the fair market value of the subject matter, nor the fair market value of the consideration to be paid by insiders of the Company for the transaction, insofar as it involves the related party, is expected to exceed 25% of the Company’s market capitalization, and accordingly, the Company anticipates relying on exemptions from the formal valuation and minority shareholder approval requirements applicable to related party transactions under applicable Canadian securities laws.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the United States *Securities Act of 1933*, as amended (the “**U.S. Securities Act**”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

Qualified Person

Ken Lapierre, P.Geo., President and CEO of the Company, a Qualified Person in accordance with the Canadian regulatory requirements as set out in National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*, has reviewed and approved the scientific and technical information that forms the basis for the disclosure contained in this news release.

About Rocky Shore Gold Ltd.

Rocky Shore Gold is a Canadian junior exploration company focused on its 100%-owned Gold Anchor Project and Rocky Pond VMS Project both located in central Newfoundland. Gold Anchor is strategically located within one of Canada’s most promising and underexplored gold belts. The project is the second-largest property (greater than 1,200 square kilometres) in this emerging gold district. The project hosts the orogenic-hosted, near-surface bulk-tonnage Mosquito Hill and Reid

Gold Deposits and structurally controlled orogenic gold targets, including the Lucky 13 Gold Zone, along the highly prospective Appleton Fault Corridor, located on trend and southwest of major gold discoveries and deposits. The Rocky Pond VMS Project is located within the Roberts Arm VMS Belt that hosts the former-producing Buchans VMS mine. The project hosts the Handcamp gold-rich VMS Zone and multiple additional VMS showings within a 40-kilometre trend of the prolific VMS belt.
