ABOUND Energy Engages Coenda Investments to Drive Advancement of Long-Duration Energy Storage Platform

Richmond, BC, July 10, 2025 – ABOUND Energy, Inc., ("ABOUND" or the "Company") (CSE: ABND) (FSE: 0E9) a Canadian innovator in long-duration energy storage (LDES), announced today that it has entered into a success-based representation agreement with Coenda Investments Holdings Corp., a Vancouver-based investment and advisory firm dedicated to enhancing shareholder value through strategic investments. Under the agreement, Coenda will work closely with ABOUND to identify and engage strategic investors and partners who can help accelerate the next phase of development for ABOUND's advanced zinc-based Zaeras™ flow battery platform in Europe and North America.

"We believe the Zaeras™ system has the potential to reshape the way the world thinks about long-duration storage," said Keith Morlock, Director and COO of ABOUND Energy. "By aligning with Coenda through a success-based model on developing strategic investments and manufacturing partnerships, we're ensuring a shared focus on delivering real results and real value."

While ABOUND will continue to develop trusted regional partners to advance localized solutions, this collaboration with Coenda marks the company's first formal step toward advancing Zaeras™ as part of a global energy strategy, into the European market, Coenda brings a proven track record in high-level capital formation, having successfully completed multiple strategic, multimillion-dollar transactions across the energy, infrastructure, and clean technology sectors. The firm has already identified several well-aligned prospects and early engagement is off to a strong start.

"By leveraging Coenda's global network, we are positioned to hit the ground running to identify and engage strategic investors and partners who can advance the next phase of ABOUND's advanced zinc-based Zaeras™ flow battery platform in Europe and North America.," said Kerem Akbas of Coenda Investments. "There's clear opportunity and demand in the market for credible, scalable LDES technology and ABOUND fits that profile. One of our contacts in particular is highly motivated to engage, and we expect traction to build quickly from here."

The partnership will focus on a range of opportunities, including:

- Strategic equity investments
- Joint development agreements
- Licensing and co-commercialization models
- Government and institutional funding alignment

- Strategic technology acquisition or integration

With global energy systems evolving rapidly, long-duration storage technologies like Zaeras™ will play a critical role in enabling reliable, cost-effective integration of renewable power. This engagement positions ABOUND to take a leading role in that transformation.

About Coenda Investments Holdings Corp

Coenda Investments Holding Corp. is a private British Columbia-based company focused on strategic investments and long-term value creation to enhance shareholder value through governance, transparency, and accountability. As a significant shareholder in INEO Tech Corp., and Planet Based Foods Global Inc., and significant investments in private companies in the retail and finance sectors, Coenda has actively engaged in influencing corporate governance, notably by nominating directors with expertise in international finance, corporate governance, accounting, and global business development to strengthen INEO's and PBFG's boards and drive its global growth strategy.

As an investor and advisor, Coenda prioritizes strategic investments in companies like INEO, where it can leverage its influence to improve governance, transparency and competitiveness and maximizes returns through operational and strategic enhancements.

Offering Update

Further to the Company's news release dated July 4, 2025, the Company is pleased to confirm that the first, and only, tranche of its Offering consisted of the issuance of a total of 5,520,950 Units for gross proceeds of $414,072. Each Unit consisted of one common share and one common share purchase warrant. Each warrant is exercisable for two years into one common share at $0.125 per share during the first twelve months and $0.30 per share thereafter until twenty-four months from issuance. All securities issued are subject to a hold period until October 31, 2025. No finder's fees and/or commissions were paid in connection with the closing. At this time, ABOUND does not expect to proceed with a second tranche of its Offering.

About ABOUND Energy Inc.

ABOUND specializes in developing scalable, environmentally friendly, long-lasting energy technology. Our patented Zaeras™ long-duration energy storage technology, leveraging zinc-air chemistry, guarantees the storage and on-demand delivery of electricity without the limitations or environmental risks associated with current market leaders.

About ABOUND's Zaeras™ Technology

Zaeras™ is precision-engineered to meet future energy requirements, with a specific emphasis on simplifying long-duration energy storage. Harnessing the potential of its multi-patented Zaeras™ technology, ABOUND is poised to facilitate the seamless integration of green energy sources into the grid. This is achieved by minimizing curtailment, bridging the gap between supply and demand, and efficiently integrating green energy into the grid. ABOUND's strategic initiatives encompass opportunities for peak demand reduction, leveraging time-of-use arbitrage, participating in value stacking programs, and entering the distributed long-duration energy storage sector. These endeavors are aligned with our central objective of increasing the integration and resiliency of green energy, while stabilizing the grid.

Distinguished by its inherent safety—free from fire or explosion hazards—Zaeras™ guarantees sustained capacity over an extensive lifecycle. Simultaneously, it showcases versatility by independently managing charge and discharge operations. Comparable to other Flow Battery technologies, scaling up the energy capacity of Zaeras™ is as simple as increasing the size of the fuel tank; a cost-effective solution, from kWh to MWh. This is a welcome alternative to the fixed power-to-energy ratio constraints ingrained in traditional systems, such as Li-ion and Zinc Hybrid Batteries.

Notice Regarding Forward Looking Statements

Certain statements in this release constitute "forward-looking statements" or "forward-looking information" within the meaning of applicable securities laws including, without limitation, the timing, nature, scope and details regarding the Company's plans and results. Such statements and information involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, its projects, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information. Such statements can be identified by the use of words such as "may", "would", "could", "will", "intend", "expect", "believe", "plan", "anticipate", "estimate", "scheduled", "forecast", "predict" and other similar terminology, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. These statements reflect the Company's current expectations regarding future events, performance and results and speak only as of the date of this release.

Forward-looking statements in this release but are not limited to, statements with respect to the expectations of management regarding the Offering, the expectations of management regarding the use of proceeds of the Offering, closing conditions for the Offering, and no objection from the CSE in respect of the Offering. These forward-looking statements are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. Risks that could change or prevent

these statements from coming to fruition include the CSE objecting to the Offering; the proceeds of the Offering may not be used as stated in this release; ABOUND may be unable to satisfy all of the conditions to the closing required by the CSE. ABOUND does not undertake to update any forward-looking statements or information except as may be required by applicable securities laws.

Neither the CSE nor any Market Regulator (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
