.RECITALS

A. ABOUND and H2Si are parties to a Technology Commercialization and License Agreement dated as of June 27, 2026 (the "**License Agreement**"), providing for the grant of a licence and the conditional assignment and transfer of the H2Si Technology and the Acquired Intellectual Property to ABOUND.

B. The issued and outstanding shares of H2Si are held as to seventy percent (70%) by Robert McKenzie, being 70 Class "A" Voting Shares, and as to thirty percent (30%), being 30 Class "B" Voting Shares, by Amerada. Each of Robert McKenzie and Amerada is a shareholder of H2Si entitled to vote on the Required Shareholder Approval.

C. Amerada is the registered and beneficial owner of the Patents and the other Amerada-Held IP. The Amerada-Held IP is required to be transferred to H2Si (the "**IP Consolidation**") so that H2Si holds the title necessary to perform its obligations under the License Agreement, including the conditional assignment of the Acquired Intellectual Property to ABOUND.

D. The H2Si Technology and the Acquired Intellectual Property constitute all or substantially all of the property of H2Si, and Robert McKenzie is the sole director of Amerada and one of four directors of H2Si, the transactions contemplated by the License Agreement and the IP Consolidation accordingly require the Required Shareholder Approval and the Required Amerada Approval.

E. As a condition to entering into the License Agreement, ABOUND has required that (a) Amerada (i) support and obtain the required approvals, (ii) effect and record the IP Consolidation, (iii) make the representations and warranties set out in this Agreement, and (iv) guarantee, severally with the Personal Guarantor, the performance of H2Si's obligations under the License Agreement; and (b) the Personal Guarantor (i) support and obtain the Required Shareholder Approval and the Required Amerada Approval, and (ii) guarantee, severally with Amerada, the performance of

H2Si's obligations as set out in this Agreement, in each case on the terms set out in this Agreement.

NOW THEREFORE in consideration of ABOUND entering into the License Agreement and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the parties agree as follows:

2.2 Amerada shall take all other actions reasonably necessary or desirable to obtain the Required Shareholder Approval and the Required Amerada Approval, and shall not take any action that would frustrate, delay, or impair the obtaining of either approval.

2.3 Robert McKenzie covenants and agrees with ABOUND that he shall, as promptly as practicable and in any event within the period specified in Section 5.8 of the License Agreement:

3.1 On or before the Closing Date, Amerada shall, and H2Si shall cause Amerada to, complete the IP Consolidation and execute and deliver all assignments and instruments necessary to vest the Amerada-Held IP (including the Patents) in H2Si, free and clear of all encumbrances (except for the Amerada-McKenzie Royalty as at the Effective Date and subject to its termination per Section 5.3).

3.2 Amerada shall submit, or cause to be submitted, the assignments effecting the IP Consolidation for recordation with each applicable patent office and Intellectual Property registry within ten (10) Business Days after the Closing, and shall deliver to ABOUND evidence of such submission and, promptly upon receipt, evidence of recordation.

3.3 Until completion of the IP Consolidation, Amerada shall preserve, protect, and maintain the Amerada-Held IP, shall maintain all Patents in good standing and pay all maintenance and renewal fees, and shall not abandon, sell, assign, licence, encumber, pledge, impair, or otherwise dispose of any Amerada-Held IP without ABOUND's prior written consent.

4. REPRESENTATIONS AND WARRANTIES OF AMERADA AND ROBERT McKENZIE

4.1 Amerada represents and warrants to ABOUND, as of the date of this Agreement and (except where a representation is expressed to be made as of a specific date) as of the Closing Date and the Transfer Date, that:

(a) **Existence**. Amerada is duly incorporated, validly existing, and in good standing under the laws of Alberta, and has full corporate power and authority to own the Amerada-Held IP, to enter into and perform this Agreement, and to effect the IP Consolidation; and this Agreement has been duly authorized, executed, and delivered by Amerada and is a legal, valid, and binding obligation of Amerada enforceable in accordance with its terms, subject to customary insolvency and equity qualifications.

(b) **Title**. As of the date of this Agreement and until completion of the IP Consolidation, Amerada is the sole legal and beneficial owner of, and the registered owner of record of, the Patents and all other Amerada-Held IP, free and clear of all encumbrances except as disclosed in Schedule E to the License Agreement, and has not granted any licence,

option, security interest, or other right in the Amerada-Held IP except as so disclosed. No amounts have been due or are presently due in respect of the Amerada-MacKenzie Royalty.

(c) **Chain of title**. All inventors, employees, officers, directors, consultants, and contractors who conceived or contributed to any Amerada-Held IP have validly and irrevocably assigned all of their right, title, and interest in it to Amerada, with moral rights waived to the extent permitted by law, pursuant to written agreements sufficient to permit Amerada to effect the IP Consolidation.

(d) **Authority for IP Consolidation; conflicts**. The IP Consolidation and the matters contemplated by this Agreement have been duly authorized by all necessary corporate action of Amerada, including the Required Amerada Approval; and the interest and conflict of Robert McKenzie (as sole director of Amerada and as a director, officer, and shareholder of H2Si and the recipient of the Inventor Royalty) has been fully disclosed to, and (where required) approved by, the disinterested shareholders of Amerada in accordance with the ABCA and Amerada's constating documents.

(e) **Capitalization**. Amerada is the registered and beneficial owner of the Subject Shares, being 30 Class "B" Voting Shares of H2Si, which represent thirty percent (30%) of the issued and outstanding shares of H2Si. The remaining seventy percent (70%) of the issued and outstanding shares of H2Si are held by Robert McKenzie. The Subject Shares and the shares held by Robert McKenzie together constitute all of the issued and outstanding shares of H2Si, and there are no options, warrants, or other rights to acquire any shares of H2Si, except as disclosed in Schedule E to the License Agreement.

(f) **No infringement**. To Amerada's knowledge, the Amerada-Held IP and its use as contemplated by the License Agreement do not infringe, misappropriate, or violate the Intellectual Property rights of any third party, and Amerada has received no written notice or claim of any such infringement, misappropriation, or violation.

(g) **No institutional rights**. No Governmental Authority, university, research institute, or grant provider has any march-in right, reversion right, retained licence, or other right in the Amerada-Held IP, and no portion of the Amerada-Held IP was developed with funding giving rise to any such right, except as disclosed in Schedule E to the License Agreement.

(h) **Solvency; no transfer at undervalue**. Amerada is, and immediately after giving effect to the IP Consolidation will be, solvent and able to pay its debts as they become due; and the IP Consolidation is made for fair and reasonably equivalent value, is not made with intent to defeat, hinder, delay, or defraud any creditor, and does not constitute a transfer at undervalue, fraudulent preference, or fraudulent conveyance under the *Bankruptcy and Insolvency Act* (Canada), the *Fraudulent Preferences Act* (Alberta), or any similar law.

(i) **No adverse claims**. To Amerada's knowledge, no shareholder of Amerada has asserted or threatened, and no facts exist that would reasonably be expected to give rise to, any claim (including any oppression, derivative, or unfair-prejudice claim) challenging the IP Consolidation, the ownership of the Amerada-Held IP, or the transactions contemplated by the License Agreement.

(j) **No open source**. Except as disclosed in Schedule E to the License Agreement, Amerada has not incorporated, linked, or combined any open source, copyleft, or freely distributable software or materials into the Amerada-Held IP in any manner that requires, or conditions its use on, the disclosure or licensing of any Amerada-Held IP (including

source code), the granting of rights to make derivative works, or any restriction on charging for it.

4.2 Robert McKenzie represents and warrants to ABOUND, as of the date of this Agreement and (except where a representation is expressed to be made as of a specific date) as of the Closing Date and the Transfer Date, that:

(a) **Capacity**. Robert McKenzie has the power and capacity to enter into and perform this Agreement, and this Agreement is a legal, valid, and binding obligation enforceable against him in accordance with its terms, subject to customary insolvency and equity qualifications.

(b) **Ownership of shares**. Robert McKenzie is the registered and beneficial owner of seventy percent (70%) of the issued and outstanding shares of H2Si, free and clear of any encumbrance, option, or voting arrangement that would impair his obligations under this Agreement.

(c) **All issued shares**. Together with the Subject Shares held by Amerada, the shares held by Robert McKenzie constitute all of the issued and outstanding shares of H2Si, and there are no options, warrants, or other rights to acquire any shares of H2Si, except as disclosed in Schedule E to the License Agreement.

5. COVENANTS

5.1 **Maintenance of existence**. Until the Survival Date, each of H2Si and Amerada shall maintain its corporate existence and good standing and shall not dissolve, wind up, amalgamate, liquidate, or reduce its capital without ABOUND's prior written consent.

5.2 **Restriction on distributions**. Until the Survival Date, H2Si shall not declare, pay, or make any dividend, distribution, or transfer of the Consideration Shares (or the proceeds of them) to any shareholder of H2Si or any other person, and Amerada shall not further distribute any Consideration Shares it receives, except in each case as expressly permitted under, and in accordance with, the License Agreement and the Pooling Agreement.

5.3 **Amerada-McKenzie Royalty**. Amerada shall fulfill all payment obligations required of it under the Amerada-McKenzie Royalty. As part of the IP Consolidation, each of H2Si and Amerada shall cause the termination of the Amerada-McKenzie Royalty prior to the Closing Date in relation to the Amerada-MacKenzie Royalty Termination as referenced in the Licence.

5.4 **Bring-down**. The representations and warranties in Article 4 shall be true and correct in all material respects (and, in the case of Sections 4.1(a), 4.1(b), 4.1(c), 4.1(d), 4.1(h), and 4.2(b), in all respects) as of the date of this Agreement, the Closing Date, and the Transfer Date, as though made on and as of each such date.44.1(a)4.1(b)4.1(c)4.1(d)4.1(h)

6. GUARANTEE AND INDEMNITY

6.1 **Guarantee**. Each of Amerada and the Personal Guarantor severally, and not jointly or jointly and severally, guarantees to ABOUND the due and punctual performance and payment of all obligations and liabilities of H2Si under the License Agreement (collectively, the "**Guaranteed Obligations**"). For greater certainty, the Guaranteed Obligations include, without limitation, H2Si's obligations all obligations and liabilities of H2Si under the License Agreement, relating to, or arising out of, (i) title to and ownership of the H2Si Technology, the Acquired Intellectual Property, and the Amerada-Held IP; (ii) the IP Consolidation and any failure to complete or record it; (iii) the Formation Defects; (iv) any claim by a shareholder of H2Si or Amerada (including any oppression, derivative, or unfair-prejudice claim) and any dissent or appraisal claim; (v) any claim that the IP Consolidation or any transaction contemplated by the License Agreement or this

Agreement required an approval (including a special resolution under section 190 of the ABCA) that was not obtained, or is challenged, set aside, or unwound; (vi) any claim that any such transfer is a transfer at undervalue, fraudulent preference, or fraudulent conveyance; (vii) any claim that the H2Si Technology, the Acquired Intellectual Property, or the Amerada-Held IP, or ABOUND's authorized use, deployment, or commercialization of any of them, infringes, misappropriates, or violates the intellectual property or other proprietary rights of any third party; and (viii) the indemnification obligations of H2Si under Article 13 of the License Agreement in respect of any of the foregoing. Each of Amerada and the Personal Guarantor is liable only for its Proportionate Share of each Guaranteed Obligation. "Proportionate Share" means, for the Personal Guarantor, seventy percent (70%), and for Amerada, thirty percent (30%). Neither Amerada nor the Personal Guarantor is liable for any portion of the other's Proportionate Share, or for any shortfall arising from the other's failure to satisfy its share.

6.2 **Cap**. The aggregate liability of each of Amerada and the Personal Guarantor under this Agreement shall not exceed its Proportionate Share of US$5,000,000; that is, US$3,500,000 for Robert McKenzie and US$1,500,000 for Amerada.

6.3 **Primary obligor**. The guarantee in this Article 6 is a guarantee of payment and performance and not merely of collection. Each of Amerada and the Personal Guarantor is liable as a primary obligor and not merely as a surety in respect of its Proportionate Share, and ABOUND is not required to exhaust its recourse against H2Si or the other, or to realize on any security, before proceeding against either of them for its Proportionate Share.6

6.4 **Continuing and absolute**. The guarantee is a continuing guarantee and remains in full force and effect until all Guaranteed Obligations have been fully performed and satisfied. The liability of each of Amerada and the Personal Guarantor, in respect of its Proportionate Share, is absolute and unconditional and is not released, discharged, or otherwise affected by any amendment or variation of the License Agreement; any indulgence granted to H2Si or the other; any change in the constitution, ownership, control, or insolvency of H2Si or the other; the invalidity or unenforceability of any obligation of H2Si or the other; or any other circumstance that might otherwise discharge a surety. For greater certainty, the insolvency of, or any shortfall in recovery from, one of Amerada or the Personal Guarantor does not increase the other's liability beyond its Proportionate Share.

6.5 **Indemnity**. As a separate and independent obligation, each of Amerada and the Personal Guarantor shall, in respect of its Proportionate Share, indemnify and hold harmless the ABOUND Indemnitees from and against all Losses arising out of or relating to the Guaranteed Obligations, including any case where any Guaranteed Obligation is or becomes unenforceable against H2Si.

6.6 **Subordination**. Until the Guaranteed Obligations are fully satisfied, any claim of either Amerada or the Personal Guarantor against H2Si (whether by subrogation, contribution, indemnity, or otherwise) is subordinated to the prior payment in full of the Guaranteed Obligations, and neither Amerada nor the Personal Guarantor shall seek to recover from H2Si in a manner that would reduce the assets available to satisfy the Guaranteed Obligations.

7. TRANSFER RESTRICTIONS; NO COMPETING TRANSACTION

7.1 Until the Survival Date, Amerada shall not sell, transfer, pledge, or otherwise dispose of, or grant any proxy or enter into any voting arrangement in respect of, any of its Subject Shares, except a transfer to a transferee that first agrees in writing to be bound by this Agreement.

7.2 Amerada shall not, directly or indirectly, solicit, initiate, encourage, or support any inquiry, proposal, or transaction that would reasonably be expected to impede, delay, or be inconsistent with the transactions contemplated by the License Agreement, including any alternative sale,

licence, or disposition of the H2Si Technology, the Acquired Intellectual Property, or the Amerada-Held IP.

8. TERM AND TERMINATION

8.1 This Agreement takes effect on the date of this Agreement.

8.2 The voting and support obligations in Article 2 terminate upon the obtaining of the Required Shareholder Approval and the Required Amerada Approval. For greater certainty, Articles 3 through 7 (including the representations and warranties, the IP Consolidation covenants, the guarantee and indemnity, and the distribution restrictions) survive until the Survival Date or, in the case of the guarantee and indemnity, until the Guaranteed Obligations are fully satisfied.

8.3 If the License Agreement is terminated in accordance with its terms before Closing, this Agreement terminates automatically, except that (i) no such termination relieves a party of liability for a prior breach, and (ii) any guarantee or indemnity obligation in respect of Guaranteed Obligations that accrued before such termination survives.
