

RUMBLE RESOURCES INC.

Financial Statements

For the Years Ended July 31, 2025 and 2024

(Expressed in Canadian Dollars)

DALE MATHESON CARR-HILTON LABONTE LLP
CHARTERED PROFESSIONAL ACCOUNTANTS

Independent Auditor's Report

To the Shareholders of Rumble Resources Inc.

Opinion

We have audited the financial statements of Rumble Resources Inc. (the "Company"), which comprise the statements of financial position as at July 31, 2025 and 2024, and the statements of comprehensive loss, changes in equity and cash flows for the years then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at July 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 to the financial statements, which indicates that the Company has not generated any revenue and has accumulated losses of \$735,597 since inception. These events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters, that in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Except for the matter described in the Material Uncertainty Related to Going Concern section, we have determined that there are no other key audit matters to communicate in our report.

Other Information

Management is responsible for the other information. The other information comprises the information included in Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Rakesh Patel.

A handwritten signature in black ink that reads "DMCL." The letters are stylized and connected.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

1. Nature of Operations and Continuance of Business

Rumble Resources Inc. (formerly Rumble Capital Corp.) (the “Company”), was incorporated under the laws of British Columbia, Canada on June 23, 2017, and on December 14, 2020, the name was changed to Rumble Resources Inc. The Company’s principal business plan is to acquire, explore and develop mineral properties and ultimately seek earnings by exploiting mineral claims. The Company’s registered office is 741 Harbourfront Drive N.E., Salmon Arm, BC, V1E 3L4. On September 5, 2023, the Company started trading on the Canadian Securities Exchange (“CSE”) under the symbol “RB”.

These financial statements have been prepared on a going concern basis which assumes that the Company will realize the carrying value of its assets and discharge its liabilities in the normal course of business. As at July 31, 2025, the Company has not generated any revenue and has accumulated losses of \$735,597 since inception. The Company’s continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. There is no guarantee that the Company will be able to complete any of the above objectives. These factors indicate the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be available on acceptable terms. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. Material Accounting Policy Information

(a) Statement of Compliance and Basis of Presentation

These financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of financial statements.

These financial statements have been prepared on a historical cost basis, and are presented in Canadian dollars, which is the Company’s functional currency.

(b) Use of Estimates and Judgments

The preparation of these financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues and expenses. By their nature, estimates are subject to measurement uncertainty and changes in such estimates in future periods could require a material change in the financial statements. Accordingly, actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Significant areas requiring the use of estimates include fair value of share-based payments, the recoverability of exploration and evaluation assets, and unrecognized deferred income tax assets. Actual results could differ from those estimates.

Judgments made by management include the factors used to determine the assessment of whether the going concern assumption is appropriate. The assessment of the going concern assumption requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company’s ability to continue as a going concern.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

2. Material Accounting Policy Information (continued)

(c) Financial Instruments

(i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

The following table shows the classification of financial assets and liabilities:

Financial assets/liabilities	Classification
Cash	FVTPL
Accounts payable	Amortized cost
Due to related parties	Amortized cost

(ii) Measurement

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of comprehensive loss in the period in which they arise.

Debt investments at FVTOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income ("OCI"). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVTOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

2. Material Accounting Policies (continued)

(c) Financial Instruments (continued)

(iii) Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and / or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

(d) Share Capital

Proceeds from the issuance of common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and stock options are recognized as a deduction from equity, net of any tax effects.

Valuation of equity units issued in private placements

The Company has adopted a residual value method with respect to the measurement of shares and warrants issued as private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component.

(e) Income Taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in net loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax

Deferred income tax is provided using the statement of financial position method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable income will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

2. Material Accounting Policies (continued)

(f) Loss Per Share

Basic loss per share is computed using the weight average number of common shares outstanding during the period.

Diluted earnings or loss per share ("LPS") is calculated by adjusting the earnings and number of shares for the effects of dilutive options and other dilutive potential units. The effects of anti-dilutive potential units are ignored in calculating diluted LPS. When a loss is incurred during the period, basic and diluted loss per share are the same as the exercise of stock options and share purchase warrants is considered to be anti-dilutive.

(g) Share-based Payments

Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instrument issued if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The corresponding amount is credited to the equity reserve. The fair value of options is determined using the Black-Scholes Option Pricing Model. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognized for services received as consideration for the equity instruments granted, shall be based on the number of equity instruments that eventually vest.

(h) Exploration and Evaluation Assets

Exploration and evaluation expenditures include the costs of acquiring licenses, costs associated with exploration and evaluation activity, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination. Exploration and evaluation expenditures are capitalized. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss.

Government tax credits are recorded as a reduction to the cumulative costs incurred and capitalized on the related property in the period it is received.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Once the technical feasibility and commercial viability of the extraction of resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property, plant and equipment.

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

2. Material Accounting Policies (continued)

(i) Impairment of Non-Current Assets

At each reporting date, the Company reviews the carrying amounts of its tangible assets to determine whether there are any indications of impairment. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any.

Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit ("CGU") to which the asset belongs. The recoverable amount is determined as the higher of fair value less direct costs to sell and the asset's value in use. In assessing value in use, the estimated future cash flows are discounted to their present value. Estimated future cash flows are calculated using estimated recoverable reserves, estimated future commodity prices and the expected future operating and capital costs. The pre-tax discount rate applied to the estimated future cash flows reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

If the carrying amount of an asset or CGU exceeds its recoverable amount, the carrying amount of the asset or CGU is reduced to its recoverable amount through an impairment charge to the statement of comprehensive loss.

Assets that have been impaired are tested for possible reversal of the impairment whenever events or changes in circumstance indicate that the impairment may have reversed. When an impairment subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but only so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of depreciation, depletion and amortization) had no impairment loss been recognized for the asset or CGU in prior periods. A reversal of impairment is recognized as a gain in the statement of comprehensive loss.

(j) Recent Accounting Pronouncements

IFRS 18 - Presentation and Disclosure of Financial Statements

The standard replaces IAS 1 Presentation of Financial Statements and includes requirements for the presentation and disclosure of information in financial statements, such as the presentation of subtotals within the statement of operations and the disclosure of management-defined performance measures within the financial statement. This standard is effective for periods beginning on or after January 1, 2027 with earlier application permitted. The Company is currently assessing the effect of the new standard to its financial statements in future periods.

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

3. Exploration and Evaluation Assets

The Company has incurred costs on its exploration and evaluation assets as follows:

	Woolford Creek Property \$	Wilmac Property \$	Total \$
Balance, July 31, 2023	100,000	–	100,000
Exploration expenditures:			
General exploration	73,320	–	73,320
Field supplies and equipment rental	25,077	–	25,077
Balance, July 31, 2024	198,397	–	198,397
Acquisition costs	–	100,000	100,000
Mining tax credit refund	(29,520)	–	(29,520)
Impairment	(168,877)	–	(168,877)
Balance, July 31, 2025	–	100,000	100,000

Woolford Creek Property

On October 15, 2020, as amended on December 15, 2023, the Company entered into a Mineral Property Option Agreement (the “Agreement”), whereby the Company was granted an option to acquire a 100% interest in 8 mining claims located in the Adams Lake area of the Kamloops Mining Division, British Columbia, covering 4,414 hectares (the “Woolford Creek Property”). Pursuant to the Agreement, the Company must make the following payments and expenditures in order to keep the option in good standing:

- i) \$35,000 upon execution of the Agreement (paid);
- ii) Issuance of 250,000 common shares after the date that the British Columbia Securities Commission issues a final receipt for the Company’s initial public offering prospectus (issued at a fair value of \$25,000);
- iii) \$40,000 within four months of execution of the Agreement (paid);
- iv) Fund exploration and development work on the Woolford Creek Property of at least \$100,000 by June 30, 2024 (funded); and
- v) Fund exploration and development work on the Woolford Creek Property of at least an additional \$200,000 by June 30, 2025.

Once the above cash payment, share issuance, and exploration expenditures have been made, the Company shall have exercised the option and acquired 100% of the right, title and interest in the Woolford Creek Property. The Agreement may be terminated, and the transactions contemplated by the Agreement may be abandoned, at any time prior to exercise of the option by 30 day’s written notice of the optionor upon the failing of the Company to make the required payments. The vendor shall retain a 2% net smelter royalty (subject to an optional repurchase of 1% of the NSR by the Company for \$1,000,000) in respect of all products produced from the property.

Subsequent to the year ended July 31, 2025, the Company terminated the Agreement (Note 12). During the year ended July 31, 2025, the Company recognized an impairment of \$168,877 of the Woolford Creek Property.

3. Exploration and Evaluation Assets (continued)

Wilmac Property

On June 4, 2025, the Company entered into a Mineral Property Option Agreement (the "Agreement"), whereby the Company was granted an option to acquire a 70% interest in 2 mineral claims located in the Princeton area of the Kamloops Mining Division, British Columbia, covering 2,355 hectares (the "Wilmac Property"). Pursuant to the Agreement, the Company must make the following securities issuance, cash payments, and exploration expenditures in order to keep the option in good standing:

- i) Issuance of 2,000,000 units, with each unit consisting of one common share and one two-year transferable share purchase warrant entitling the holder to acquire an additional common share for \$0.10, forthwith after five business days from the date that the Company files a Notice of Proposed Issuance of Listing Securities on the CSE (issued with a fair value of \$75,000 (Note 5));
- ii) Makes a total of \$330,000 in payments as follows:
 - a) \$25,000 upon closing of a concurrent private placement (paid);
 - b) \$25,000 by September 1, 2025;
 - c) \$50,000 by September 1, 2026;
 - d) \$100,000 by September 1, 2027; and
 - e) \$130,000 by September 1, 2028;
- iii) Funds exploration and development work totalling at least \$3,990,000 as follows:
 - a) at least \$40,000 by December 31, 2025;
 - b) at least an additional \$250,000 by December 31, 2026;
 - c) at least an additional \$500,000 by December 31, 2027;
 - d) at least an additional \$1,000,000 by December 31, 2028;
 - e) at least an additional \$1,000,000 by December 31, 2029; and
 - f) at least an additional \$1,200,000 by December 31, 2030.

Once the above securities issuance, cash payments, and exploration expenditures have been made, the Company shall have exercised the option and acquired a 70% right, title and interest in the Wilmac Property. The Agreement may be terminated, and the transactions contemplated by the Agreement may be abandoned, at any time prior to exercise of the option by 30 day's written notice of the optionor upon the failing of the Company to pay the required consideration. The optionors shall retain a 2% net smelter royalty (subject to an optional repurchase of 1% of the royalty by the Company for \$2,000,000) in respect of all products produced from the Wilmac Property. Two months after the deemed exercise of the option, the Company must commence making annual advance royalty payments of \$100,000 per year.

On October 8, 2025, the Mineral Property Option Agreement was amended (Note 12).

(Expressed in Canadian Dollars)

4. Related Party Transactions

During the year ended July 31, 2025, the Company incurred consulting fees of \$30,000 (2024 – \$30,000) to a director of the Company. As at July 31, 2025, the Company owed \$53,543 (2024 – \$27,944) to the director of the Company. The amount is non-interest bearing, unsecured and due on demand.

During the year ended July 31, 2025, the Company incurred rent of \$6,000 (2024 – \$6,000) to a company controlled by a director of the Company. As at July 31, 2025, the Company owed \$nil (2024 – \$2,000) to the company controlled by a director of the Company. The amount is non-interest bearing, unsecured and due on demand.

During the year ended July 31, 2025, the Company recognized share-based compensation of \$nil (2024 – \$818) for officers and directors of the Company.

On June 2, 2025, the Company entered into a loan agreement for \$10,000 with a director of the Company, which was unsecured, non-interest bearing and due on demand any time after December 31, 2025. The Company repaid the promissory note on July 28, 2025.

5. Share Capital

Authorized: Unlimited common shares without par value.

Share transaction for the year ended July 31, 2025:

On August 1, 2024, the Company issued a total of 1,000,000 common shares pursuant to the exercise of warrants at \$0.05 per share for total proceeds of \$50,000, which were recognized as shares issuable at July 31, 2024.

On July 25, 2025, the Company issued 14,000,000 units at \$0.0375 per unit for gross proceeds of \$525,000. Each unit consists of one common share and one share purchase warrant entitling the holder to acquire an additional common share of the Company at \$0.05 per until July 25, 2027. In connection with the issuance, the Company incurred share issuance costs of \$6,665.

On July 25, 2025, the Company issued 2,000,000 units at a fair value of \$75,000 pursuant to the mineral property option agreement as described in Note 3. Each unit consists of one common share and one share purchase warrant entitling the holder to acquire an additional common share of the Company at \$0.10 per until July 25, 2027.

Subsequent to the year ended July 31, 2025, the Company completed a forward stock split of its issued and outstanding common shares on a 2-for-1 basis. All share and per share figures in these financial statements have been retroactively adjusted to reflect the stock split (Note 12).

Share transaction for the year ended July 31, 2024:

On September 5, 2023, the Company completed its initial public offering (the "IPO") and issued 3,450,000 common shares at \$0.05 per share for gross proceeds of \$172,500. In connection with the IPO, the Company paid a corporate finance fee of \$20,000, an agent's commission of \$17,250, other offering costs of \$11,685, and issued 345,000 agent warrants with a fair value of \$12,991. Each agent warrant entitles the holder to purchase one common share at an exercise price of \$0.05 per share until September 5, 2025. In connection with the listing of the Company's common shares, the Company also incurred a total of \$66,012 of listing expenses.

During the year ended July 31, 2024, the Company received a total of \$50,000 pursuant to the exercise of a total of 1,000,000 warrants at \$0.05 per share. As at July 31, 2024, the common shares were not issued and the amount was recognized as shares issuable. These shares were issued during the year ended July 31, 2025.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

5. Share Capital (continued)

Escrow shares

The Company has 3,000,000 common shares held in escrow as at July 31, 2025 (2024 – 4,000,000), which will be released in tranches over a 36-month period, beginning no earlier than 10 days following the public announcement of the completion of the first-phase exploration program on the Company's Woolford Creek Property (the "Initial Release Date"). The release will occur every six months following the Initial Release, with the initial release comprising 400,000 of the escrowed securities, and each subsequent release comprising 600,000 escrowed securities. On January 29, 2025, 400,000 shares were released from escrow. On July 29, 2025, 600,000 shares were released from escrow.

6. Stock Options

The Company's Board of Directors approved a stock incentive plan dated May 19, 2021. The Board of directors is authorized to grant options to directors, officers, and employees to acquire up to 10% of the issued and outstanding commons shares of the Company. The exercise price will not be less than the discounted market price defined in the policies of the CSE. The options that may be granted under this plan must be exercisable for over a period of not exceeding ten years, provided the Company is listed on the CSE.

The following table summarizes information about the options at July 31, 2025, and 2024, and the changes for the years then ended:

	Number of options	Weighted average exercise price \$
Options outstanding – July 31, 2023, 2024, and 2025	1,600,000	0.05
Options exercisable – July 31, 2025	1,600,000	0.05

The following table summarizes information about stock options outstanding and exercisable at July 31, 2025:

Exercise price \$	Expiry date	Stock options outstanding	Weighted average remaining contracted life (years)
0.05	September 5, 2033	1,600,000	8.10

The grant date fair value of stock options was determined using the Black-Scholes Option Pricing Model. During the year ended July 31, 2025, the Company recognized share-based compensation expense of \$nil (2024 – \$818) in the equity reserve, which pertains to officers and directors of the Company, for the portion of the stock options expected to vest.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

6. Stock Options (continued)

Weighted average assumptions used in calculating the fair value of share-based compensation expense are as follows:

	2025	2024
Risk-free interest rate	–	1.58%
Dividend yield	–	0%
Expected volatility	–	134%
Expected forfeitures	–	0%
Expected life (years)	–	10

Equity reserve

The equity reserve records items recognized as share-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

7. Warrants

The following table summarizes information about the warrants at July 31, 2025, and 2024, and the changes for the years then ended:

	Number of warrants	Weighted average exercise price \$
Warrants outstanding – July 31, 2023	9,750,000	0.05
Issued	345,000	0.05
Warrants outstanding – July 31, 2024	10,095,000	0.05
Issued	16,000,000	0.06
Exercised	(1,000,000)	0.05
Warrants outstanding – July 31, 2025	25,095,000	0.05

The following table summarizes information about warrants outstanding and exercisable at July 31, 2025:

Exercise price \$	Expiry date	Warrants outstanding	Weighted average remaining contracted life (years)
0.05	September 5, 2025	345,000	0.10*
0.05	July 25, 2027	14,000,000	1.98
0.10	July 25, 2027	2,000,000	1.98
0.05	September 5, 2028	8,750,000	3.10
0.05		25,095,000	2.35

* 320,000 warrants were exercised subsequent to July 31, 2025 and the remaining 25,000 warrants expired subsequently

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

7. Warrants (continued)

The Company uses the Black-Scholes Option Pricing Model to value agent's warrants and warrants included in the units issued for mineral property option agreement. Weighted average assumptions used in calculating the fair value of agent's warrants and warrants included in the units issued for mineral property option agreement are as follows:

	2025	2024
Risk-free interest rate	2.80%	4.66%
Dividend yield	0%	0%
Expected volatility	129.53%	159.63%
Expected forfeitures	0%	0%
Expected life (years)	1.84	2

8. Financial Instruments

The Company, as part of its operations, carries financial instruments consisting of cash, accounts payable and accrued liabilities, and due to related parties. It is management's opinion that the Company is not exposed to significant credit, interest, or currency risks arising from these financial instruments except as otherwise disclosed.

(a) Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

As at July 31, 2025, the Company classifies cash as FVTPL with level 1 input. The Company classifies accounts payable and due to related parties as amortized cost. The fair values of financial instruments, which include cash, accounts payable, and due to related party, approximate their carrying values due to the relatively short-term maturity of these instruments. There have been no changes in these levels and no changes in classifications during the year ended July 31, 2025.

(b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. Management monitors the amount of credit extended to the parties for expense recoveries. The carrying amount of financial assets represents the maximum credit exposure. Credit risk is assessed as low.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising debt or equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. Liquidity risk is assessed as high.

(d) Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Company does not have significant exposure to these risks.

RUMBLE RESOURCES INC.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

9. Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and equity reserve. The Company manages its capital structure and makes adjustments to it in light of changes to economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances. The Company is not subject to externally imposed capital requirements.

10. Segment Reporting

The Company operates in a single reportable segment, which is the acquisition, exploration and development of exploration and evaluation assets in Canada.

11. Income Taxes

The actual income tax provisions differ from the expected amounts calculated by applying the Canadian combined federal and provincial corporate income tax rates to the loss before income taxes. A reconciliation of the expected income tax recovery to the actual income tax recovery is as follows:

	2025	2024
	\$	\$
Net loss before income taxes	(292,690)	(164,920)
Statutory income tax rate	27%	27%
Expected income tax recovery at statutory rate	(79,026)	(44,528)
Permanent differences and other	(12,331)	6,970
Temporary differences	(1,800)	(13,212)
Change in valuation allowance	93,157	50,770
Deferred income tax recovery	–	–

The significant components of deferred income tax assets and liabilities are as follows:

	2025	2024
	\$	\$
Non-capital losses	196,480	101,427
Financing costs	10,754	12,650
Valuation allowance	(207,234)	(114,077)
Deferred income taxes recovered	–	–

As of July 31, 2025, the Company has non-capital tax losses of approximately \$559,000 (2024 – \$423,000) that may be offset against future Canadian taxable income. These losses expire commencing 2037.

Notes to the Financial Statements

July 31, 2025 and 2024

(Expressed in Canadian Dollars)

12. Subsequent Events

On August 19, 2025, the Company announced that it terminated the Mineral Property Option Agreement for the Woolford Creek Property (Note 3).

On August 25, 2025, the Company completed a forward stock split of its issued and outstanding common shares on a 2-for-1 basis. All share and per share figures in these financial statements have been retroactively adjusted to reflect the stock split (Note 5).

Subsequent to the year ended July 31, 2025, a total of 670,000 warrants were exercised at \$0.05 per share and 25,000 warrants exercisable at \$0.05 per share expired unexercised.

On October 8, 2025, the Company amended its Mineral Property Option Agreement as discussed in Note 3 in relation to its Wilmac Property (Note 3). Pursuant to the amendment, the Company agreed to issue an additional 2,000,000 units. Each Unit consists of one common share and one transferable common share purchase warrant. Each warrant entitles the holder to purchase one common share at \$0.30 per share for 24 months from issuance. Securities are subject to a four-month-and-one-day hold and applicable regulatory approvals. In addition, the total cash consideration was amended from \$330,000 to \$700,000, payable according to the following schedule:

- a) \$25,000 upon closing of the private placement (paid);
- b) \$50,000 by December 1, 2025;
- c) \$125,000 by September 1, 2026;
- d) \$200,000 by September 1, 2027; and
- e) \$300,000 by September 1, 2028.

On October 24, 2025, the Company issued the additional 2,000,000 units.
